

New access control system

Brf. Fredriksdalskajen is, for reasons of security and convenience, installing a new system for access control to our building. To access the building in the future, you will need an access tag (pictured right).

Four access tags will be assigned to each apartment.

The access tags will replace the current key system for access through the front doors and to the recycling rooms, bicycle garage, garage, apartment storage areas, etc. The current four-digit front door codes will no longer function.

Once the new access control system is in place, the current keys can only be used for accessing individual apartments and letter boxes.

The new system also comes with a smart phone app, *RCO Access*. The app will allow you to open the front door remotely (e.g. to let in a visitor). An instruction leaflet will be handed out when the tags are collected.

Collection of tags

Access tags must be collected by the owner of the apartment. *You must bring a valid ID card.*

Tags can be collected

- Sunday 11th October, 16:00–18:00
- Monday 12th October, 19:00–21:00

in the board room, Hammarby allé 13, floor 1 (garage floor).

When collecting the tags, you will have to sign an acknowledgement that you have received the tags. Please save that document.

If you are a subletter you will need a power of attorney from the owner of the apartment in order to collect the tags. [Click here for a power of attorney template.](#)
